RESOLUTION #16-116 - 2/8/16

OPPOSE SEISMIC TESTING AND OFFSHORE DRILLING  
OFF THE UNITED STATES EAST COAST

WHEREAS, it is the responsibility of the governing body of the Township of Neptune, as well as the citizens of all coastal communities, to preserve and protect the natural beauty and ecosystems of our beaches and adjacent coastal waters for the enjoyment of current and future generations of citizens and visitors; and,

WHEREAS, the United States Bureau of Ocean Energy Management (BOEM) is considering permits allowing for the exploration and development of offshore oil and gas in the mid- and south-Atlantic Ocean which include using seismic testing for geological and geophysical surveys; and,

WHEREAS, the nature of seismic blasting in the Atlantic Ocean specifically for oil and natural gas exploration is potentially devastating to our coastal area's fish and marine life since the volume, intensity and duration of the sounds emitted during such testing have been shown to harm fish and drive them from their long-established feeding and breeding habitats, and to result in the strandings and deaths of mammals such as dolphins and whales who depend on sound for navigation and food; and

WHEREAS, these activities provide the groundwork for actual oil and natural gas exploration, including drilling; and exploratory and commercial offshore oil drilling and activities such as extracting and transporting oil and gas pose a realistic risk of a spill; and,

WHEREAS, such spills have resulted in severe harm to coastal habitat and the tourism and fishing-based economies of other coastal towns where such offshore oil and gas development has been permitted; and,

WHEREAS, the tourism industry in New Jersey, including direct, indirect and induced impacts generated \$36.4 billion to the State's Gross Domestic Product, or 6.6% of the entire state economy; and,

WHEREAS, in 2014, the state tourism industry supported over 500,000 jobs, or 9.9% of all jobs in the state; and,

WHEREAS, the economy of the Township of Neptune and its neighboring coastal towns is heavily dependent on tourism, recreational fishing and the industries that support it; and,

WHEREAS, an oil spill would have catastrophic effects on the economy of the Township of Neptune and specifically the Ocean Grove Historic District; and,

WHEREAS, the risks associated with seismic testing and offshore drilling in the Atlantic Ocean far outweigh the potential benefits; and,

WHEREAS, the continued viability and health of the Mid-Atlantic ocean and coastal region, including the Township of Neptune, require that the Bureau of Ocean Energy Management (BOEM)

continue its policy in the current 2012-2017 five-Year Program *not* to allow lease sales in the Atlantic Ocean for oil and gas exploration and development, and,

WHEREAS, neither our residents, workers, businesses of, nor the thousands of visitors to the Township of Neptune should have to face the threat of an oil spill with its negative impact on the natural environment, local economy, and property values,

THEREFORE, BE IT RESOLVED, that the Township Committee of the Township of Neptune, County of Monmouth, State of New Jersey, hereby opposes the Five-Year Program allowing oil and natural gas exploration activities, including seismic testing, in the Atlantic coastal waters adjacent to the United States East Coast, due to the potential for irreparable harm to the ecosystem of our coastline and to the economy of the State of New Jersey, and specifically the Township of Neptune; and

BE IT FURTHER RESOLVED, that a certified copy of this resolution be sent to President Barack Obama; U.S. Senators Robert Menendez and Cory Booker; U.S. Congressmen Chris Smith and Frank Pallone, Jr.; State Senator Jennifer Beck; State Assemblyman Eric J. Houghtaling and State Assemblywoman Joann Downey.
