# Dartmouth Extruded Rail

A Classic and Elegant Rail Profile with Modern Characteristics

### Unique Dartmouth Rail Features

- Commercially Code Approved for 12' span
- 12' Spans Contain Heavy-Duty Aluminum
- Standard Mix Ship with Solid 1 1/2" Square-Edge Baluster

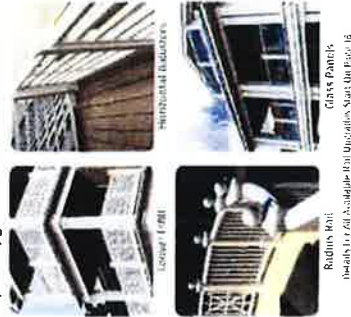

### Rail Assembly Jig

Our reusable rail assembly jig is designed specifically to help reduce installation times and labor cost. The Assembly Jig makes it easier to align, center and space balusters.

### Longer, Code Compliant Spans

Meets commercial requirements of International Building Code (IBC) and International Residential Code (IRC) for level spans up to 17 feet and stair spans up to 8 feet.

### Popular Upgrades for Dartmouth Rail:

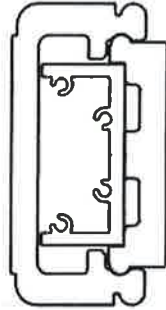

### Reinforced Super Strength

Our Dartmouth Flat profile combines a beverage friendly rail with incredible strength, suitable for residential or commercial projects.

## NON-PRORATED LIMITED WARRANTY

Permalatt Products, Inc., warrants to the original purchaser only that Permalatt vinyl lattice and vinyl products, under normal use and service, (a) will not peel, flake, rust, blister, crack, corrode or become brittle, and (b) will not require painting, replacement or maintenance due to deterioration.

This Limited Warranty covers defects in material and workmanship arising during the manufacturing process.

If the purchaser is a living person and the lattice is purchased for personal or household application, the warranty period is the lifetime of the purchaser; in all other instances, the warranty period is 30 years from the date of purchase.

All claims under this Limited Warranty must be made in writing to Permalatt Products, Inc., P.O. Box 405, Bremen, IN 46506, within the warranty period and promptly after discovery of the claimed defect, describing the defect claimed together with the proof of purchase. If a claim is made, Permalatt Products, Inc. shall have a reasonable time and opportunity to inspect the lattice. If the lattice has defects in material or workmanship covered by this Limited Warranty, and the warranty claim is made in accordance with the terms hereof, then Permalatt Products, Inc. shall, at its option, either replace the product or refund the original purchase price. Freight, labor and any other similar costs shall not be paid by Permalatt Products, Inc.

This Limited Warranty is void if any of the following occurs with respect to the product: (a) improper installation, (b) misuse, neglect, vandalism, accident or improper storage, (c) altering or changing the product by reason of applied heat, welding, solvent, epoxies or any other alteration, (d) impacts of objects, fire, flood, hurricane, tornado or other storms, or casualty or acts of war, (e) painting the surface of the product, or (f) adverse effects of air pollution.

This Limited Warranty contains the only express warranties made by Permalatt Products, Inc., and sets forth the purchaser's exclusive remedy for breach of warranty. No other warranties, express or implied, are made. Permalatt Products, Inc., specifically disclaims the implied warranties of merchantability and fitness for any particular purpose, and shall not be liable for any direct, special, incidental or consequential damages.

This Limited Warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

Lattice

DuraShell® is our strongest and most durable vinyl lattice. DuraShell® Vinyl Lattice is fade resistant in both the color and white lattice, and is resistant to insects, mold and mildew. With a 3-D and solid core construction, this lattice product will last much longer than plastic lattice and will not splinter when cut like hollow PVC can, therefore giving you the promise of long lasting beauty!

Solid core DuraShell® Lattice is made with 1/4" thick strips producing a 1/2" total thickness.

## Applications

- Hotels/Motels
- Condominiums
- Resorts
- Restaurants (indoor fire rating)
- Commercial
- Fence Accents
- Deck Skirting
- Decorative Enclosures
- Arbors/Trellises/Gazebos

## Installation

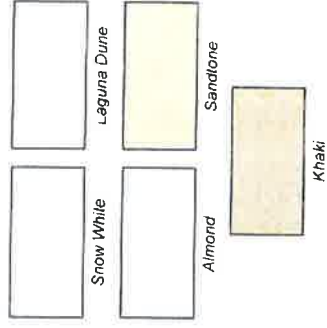

DuraShell™ Vinyl Lattice is easy to cut with a circular saw.

'U' Channel installs easily.

## Colors

Colors shown are a close representation of the true color. Please consult actual samples for accurate lattice color.

## Accessories

# TILT-WASH DOUBLE-HUNG FULL-FRAME WINDOWS

## FEATURES

### Frame

- Exterior frame members are covered with a heavy-duty vinyl-plastic laminate for long-term protection against weathering and staining.
- For exceptional long-lasting performance, frame sashes constructed with a wood core and a heavy aluminum cladding will weather for many years.
- Window wood sashes are available in pine and pre-finished white, dark bronze and black. A vinyl-clad aluminum sash is also available in a variety of colors to match your exterior.
- All sashes are coated with a protective finish to resist weathering and staining.
- To help you get the most out of your window, we offer a variety of accessories that will help you get the most out of your window.

### Sash

- Wash sashes made it easy to tilt the sash into wash mode.
- Sashes are finished with a water-repellent penetrating finish to help protect against staining and weathering.
- Sashes are finished with a water-repellent penetrating finish to help protect against staining and weathering.
- A sash stabilizer is available to help stabilize the sash when it is tilted into wash mode.
- Sashes are finished with a water-repellent penetrating finish to help protect against staining and weathering.

### Glass

- Silicone caulking provides superior weathering and durability.
- High-Performance Glass options include:
  - Low-E<sup>®</sup> glass
  - Low-E<sup>®</sup> Insulated Glass
  - Low-E<sup>®</sup> Sun Guard
  - Low-E<sup>®</sup> SmartSun
- Low-E<sup>®</sup> SmartSun heat-reflecting glass is available in white or gray and is ideal for sun-tolerant areas.
- A Low-E<sup>®</sup> Sun Guard is available for the same sun-tolerant areas.
- A Low-E<sup>®</sup> Sun Guard is available for the same sun-tolerant areas.

## 400 SERIES

# Windows D.H.

### Security Sensors

Verilon<sup>™</sup> Sensors  
Verilon sensors are available in four colors. See page 13 for details.

### Open/Closed Sensors

Wireless open/closed sensors are available in four colors. See page 13 for details.

### Glass

Anderson<sup>™</sup> Art Glass  
Available for 400 Series tilt-wash double-hung and picture units. Anderson art glass panels come in a variety of original patterns. See pages 173-174 for details on Anderson art glass. Visit [www.andersenwindows.com/artglass](http://www.andersenwindows.com/artglass) for details and pattern information.

### Storm/Insect Screen Combination Unit

Storm/Insect Screen  
Storm/Insect Screen  
Conventional insect screens have charcoal powder-coated aluminum screen mesh.

### Exterior Trim

This product is available with Anderson exterior trim. See pages 175-180 for details.

### ACCESSORIES

#### Frame

Extension Jambs  
Standard jamb depth is 4 1/2" (114). Extension jambs are available in 4 1/2", 5 1/2" and 6 1/2" (114, 138 and 162). Some jabs may be veneered. Factory-applied and non-applied interior extension jambs are available in 1/4" (1.5) increments between 5 1/2" (138) and 7 1/4" (181). Extension jambs can be factory applied in either three styles (stock and queen application) or four styles (stock frame casting).

#### Pinu Sheet

A clear one sheet is available and ready for finishing. The tilt-wash tool is available in 4 1/2" (114) for use on wall depths up to 5 1/2" (138) and 6 1/2" (162) for use on wall depths up to 7 1/4" (181). Works with 2 1/4" (54) and 2 1/2" (64) wide castings.

#### Window Opening Control Device

A recessed window opening control device is available factory applied. It limits the sash travel to less than 4" (102) when the window is fully open. Available in white and black. A lock applied window opening control device is also available.

#### Grilles

Grilles are available in a variety of configurations and widths for double-hung picture patterns. See page 8.

### COMMITWATCH

**AZEK**

Azek Trim

**BRAND OF TRIM**

A combination of Uniformity, Durability, Workability and looks and feels like real wood, yet requires low maintenance to provide lasting curb appeal.

Trim  
Designed to last beautifully.™

AZEK Trim products are available in many dimensions and sizes, most in both Traditional (smooth) and Frontier (rustic texture). With a building code listing (ESR-1074), AZEK Trim products can be worked similar to wood - even mitered, routed and turned on a lathe. For custom applications, AZEK Trim products can be laminated and heat formed to create curves. AZEK To Mill offers a true 1 1/4" profile that is perfect for fabrication and OEMs.

## TruDefinition DURATION<sup>®</sup>

Shingles with Patented SureNail<sup>™</sup> Technology

**Bold contrast. Deep dimension. TruDefinition.**

TruDefinition<sup>®</sup> Duration<sup>®</sup> Shingles are specially formulated to provide great contrast and dimension to any roof. Through the use of multiple granule colors and shadowing, TruDefinition<sup>®</sup> Duration<sup>®</sup> Shingles offer a truly unique and dramatic effect. This exclusive combination of color and depth is what makes TruDefinition<sup>®</sup> Duration<sup>®</sup> Shingles like no other.

TruDefinition<sup>®</sup> Duration<sup>®</sup> Shingles are available in popular colors with bold, lively contrast and complementing shadow lines for greater dimension. They feature a Limited Lifetime Warranty<sup>™</sup> (for as long as you own your home) and a 130-MPH Wind Resistance Limited Warranty<sup>™</sup>. TruDefinition<sup>®</sup> Duration<sup>®</sup> Shingles are produced with StreakGuard<sup>™</sup> Protection to inhibit the growth of airborne blue-green algae<sup>†</sup> that can cause unsightly dark streaks on your roof. Owens Corning provides a 10-year Algae Resistance Limited Warranty<sup>™</sup>. Beyond the outstanding curb appeal and impressive warranty coverage, they also come with the advanced performance of patented SureNail<sup>™</sup> Technology.

### The SureNail<sup>™</sup> Difference—

A technological breakthrough in roofing. The innovative features of Owens Corning TruDefinition<sup>®</sup> Duration<sup>®</sup> Shingles with patented SureNail<sup>™</sup> Technology offer the following:

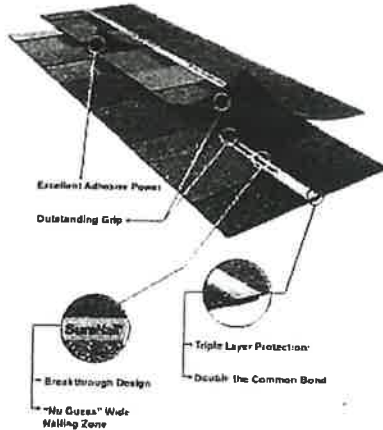

**Breakthrough Design.** Featuring a tough, woven engineered reinforcing fabric to deliver consistent fastening during installation.

**Triple Layer Protection.** A unique "triple layer" of reinforcement occurs when the fabric overlays the common bond of the shingle laminate layers that offers excellent fastener holding power.

**Outstanding Grip.** Our enhanced Tru-Bond<sup>™</sup> sealant grips tightly to the engineered fabric nailing strip on the shingle below.

**Excellent Adhesive Power.** Specially formulated, wide adhesive bands help keep shingle layers laminated together.

**Exceptional Wind Resistance.** Engineered to deliver 130-MPH<sup>†</sup> wind warranty performance with only 4 nails. Fewer nails required can mean fewer deck penetrations.
