At this point, Ms. Dunbar walked into the meeting room and advised that the new trees are further back from the curb and more trees are needed on the side of the property.

PUBLIC COMMENTS ON RESOLUTIONS

Michael Fornino, 120 Fulham Place, commented on Resolution 16-178 and stated he was curious as to why they would tax the hospital because it did not make sense to him.

Mayor McMillan stated the hospitals were moving more from a fee base type of system to an outcome space and as a result of the Morris Town Memorial hospital case which proved that in some cases hospitals have profit entities in them. He stated they just wanted to protect the interests of the taxpayers.

Mr. Anthony stated the Morris Town case which is an Appellate Court decision found that most hospitals now though they are set up as non - profit have some profit oriented operations in their facility. We are not saying the entire hospital is non exempt. He stated they wanted to find out what parts were exempt and which parts weren't and tax them accordingly.

Mr. Bishop stated they wanted to pass this to protect themselves ourselves so that we have the ability to get the information so that we can respond as these decisions unfolds. He stated this was very rapidly an interesting unfolding of situations.

Mr. Fornino stated this is not what the resolution is saying.

Mr. Anthony stated you have to file a complaint challenging the total exemption in order to get the partial exemption unless the hospital is willing to meet with you a head of time.

Dorothy Argyros, 2100 Rutherford Avenue, stated she was in total support of this because she felt the rich was getting rich and the poor people were going broke. She questioned why hospitals were tax exempt so she looked it up. She stated this was not a free enterprise at all and we all were going broke for supporting the hospital. She thanked the Committee for this resolution and urged this to pass it.

Mayor McMillan requested public comments on the above ordinance and they were as follows:

Mayor McMillan requested public comments on the above ordinance and they were as follows:

Dorothy Argyros, 2100 Rutherford Ave., repeated that since they were subsidizing Jersey Shore Medical Center she felt we should have gotten more than a dollar for this easement, especially since people who are being charged high fees and penalties for encroaching on the Township's easements.

Michael Golub, 305 Cliffwood Drive, stated from what he believes there has been ten hospitals that have been challenged on their non-profit status. We are now questioning some of Jersey Shore's locations and they are not necessarily tax exempt, they are for profit. He questioned what was the hospital saying. He also stated a lot of conversations have taken place with the hospital including the Housing Authority as well. He questioned whether that discussion has ever been broached as a negotiation tool.

Mr. Anthony stated they were dealing with that right now with the Hope tower which is their new construction project and they've taken the stance that it is all subject to non exemption

and we are realizing that it is all not necessarily. We are saying that part of the tower may or may not be tax exempt. There position so far is that the entire project is an exempt project.

Hank Coakley, Valley Road, questioned the location of the underground conduit would be proposed and erected.

Mr. Bascom stated the underground conduit would run from the police department to the hospitals new towers.

Ms. Rizzo asked if \$1 was the usual amount for an easement. Mr. Anthony stated that the Township is getting the benefit of conduit and construction to network the hospital to the Police Department
