- a) The following terms, as used in this ordinance, shall have the following meanings:
 - i. "**Affordable housing development**" means a development included in the Housing Element and Fair Share Plan, and includes, but is not limited to, an inclusionary development, a municipal construction project or a 100 percent affordable development.
 - ii. "**COAH**" or the "**Council**" means the New Jersey Council on Affordable Housing established under the Act which has primary jurisdiction for the administration of housing obligations in accordance with sound regional planning consideration in the State.

- iii. **“Development fee”** means money paid by a developer for the improvement of property as permitted in *N.J.A.C. 5:97-8.3*.
- iv. **“Developer”** means the legal or beneficial owner or owners of a lot or of any land proposed to be included in a proposed development, including the holder of an option or contract to purchase, or other person having an enforceable proprietary interest in such land.
- v. **“Equalized assessed value”** means the assessed value of a property divided by the current average ratio of assessed to true value for the municipality in which the property is situated, as determined in accordance with sections 1, 5, and 6 of P.L.1973, c.123 (C.54:1-35a through C.54:1-35c).

The following residential and non-residential fees shall be determined annually by resolution of the Township Committee, in accordance with N.J.A.C. 5:97-8.3, limited to the following:

IV. Residential Development Fees

- a) Imposed fees
 - i. Within the all zoning districts, residential developers, except for developers of the types of development specifically exempted below, shall pay a fee up to one and a half (1.5%) percent of the equalized assessed value for residential development provided no increased density is permitted.
 - ii. When an increase in residential density pursuant to N.J.S.A. 40:55D-70d(5) (known as a “d” variance) has been permitted, developers may be required to pay a development fee of up to six percent (6%) percent of the equalized assessed value for each additional unit that may be realized. However, if the zoning on a site has changed during the two-year period preceding the filing of such a variance application, the base density for the purposes of calculating the bonus development fee shall be the highest density permitted by right during the two-year period preceding the filing of the variance application.

Example: If an approval allows four units to be constructed on a site that was zoned for two units, the fees could equal up to one and a half (1.5) percent of the equalized assessed value on the first two units; and the specified higher percentage up to six (6) percent of the equalized assessed value for the two additional units, provided zoning on the site has not changed during the two-year period preceding the filing of such a variance application.
- b) Eligible exactions, ineligible exactions and exemptions for residential development
 - i. Affordable housing developments, developments where the developer is providing for the construction of affordable units elsewhere in the municipality, and developments where the developer has made a payment in lieu of on-site construction of affordable units shall be exempt from development fees.
 - ii. Developments that have received preliminary or final site plan approval prior to the adoption of a municipal development fee ordinance shall be exempt from

development fees, unless the developer seeks a substantial change in the approval.

A “substantial change” is a revision to an approved preliminary or final site plan or subdivision which meets any one (1) of the following limitations:*

- (a) Five (5) feet of improvements into any yard setback;
- (b) Seven (7) feet in building height;
- (c) One (1) percent in floor area ratio;
- (d) One (1) percent in impervious coverage;
- (e) Five (5) feet in building spacing or location;
- (f) Three (3) parking spaces;
- (g) Five (5) feet in driveway locations;
- (h) One (1) percent in site disturbances;
- (i) Five (5) feet in lot line locations;
- (j) Any change in residential density;
- (k) Any new variances pursuant to N.J.S.A. 40-55D-70.c or d;
- (l) Any such change encumbered above shall not alter the percentage of low/moderate income housing in an approved project, if applicable.

* A substitution of similar landscaping material, lighting fixtures and signage is not a substantial change as long as there is no change in approved quantities or dimensions.

Where a site plan approval does not apply, a zoning and/or building permit shall be synonymous with preliminary or final site plan approval for this purpose. The fee percentage shall be vested on the date that the building permit is issued.

- iii. Owner-occupied residential structures demolished and replaced as a result of a fire, flood, or natural disaster shall be exempt from paying a development fee.
- iv. Public government agencies and schools, which are classified by the Tax Assessor as exempt from payment of property taxes (Property Classes 15A & 15C), shall be exempt from paying development fees.

V. Non-Residential Development Fees

a) Imposed fees

- i. Within all zoning districts, non-residential developers, except for developers of the types of development specifically exempted, shall pay a fee up to two and one-half (2.5) percent of the equalized assessed value of the land and improvements, for all new non-residential construction on an unimproved lot or lots.
- ii. Non-residential developers, except for developers of the types of development specifically exempted, shall also pay a fee equal up to two and one-half (2.5) percent of the increase in equalized assessed value resulting from any additions to existing structures to be used for non-residential purposes.

- iii. Development fees shall be imposed and collected when an existing structure is demolished and replaced. The development fee of up to two and a half percent (2.5%) shall be calculated on the difference between the equalized assessed value of the pre-existing land and improvement and the equalized assessed value of the newly improved structure, i.e. land and improvement, at the time final certificate of occupancy is issued. If the calculation required under this section results in a negative number, the non-residential development fee shall be zero.
- iv. Developments that have received preliminary or final site plan approval prior to the adoption of a municipal development fee ordinance shall be exempt from development fees, unless the developer seeks a substantial change in the approval.

A "substantial change" is a revision to an approved preliminary or final site plan or subdivision which meets any one (1) of the following limitations:*

1. Five (5) feet of improvements into any yard setback;
2. Seven (7) feet in building height;
3. One (1) percent in floor area ratio;
4. One (1) percent in impervious coverage;
5. Five (5) feet in building spacing or location;
6. Three (3) parking spaces;
7. Five (5) feet in driveway locations;
8. One (1) percent in site disturbances;
9. Five (5) feet in lot line locations;
10. Any change in residential density;
11. Any new variances pursuant to N.J.S.A. 40-55D-70.c or d;
12. Any such change encumbered above shall not alter the percentage of low/moderate income housing in an approved project, if applicable.

* A substitution of similar landscaping material, lighting fixtures and signage is not a substantial change as long as there is no change in approved quantities or dimensions.

Where a site plan approval does not apply, a zoning and/or building permit shall be synonymous with preliminary or final site plan approval for this purpose. The fee percentage shall be vested on the date that the building permit is issued.

- c) Eligible exactions, ineligible exactions and exemptions for non-residential development
 - i. The non-residential portion of a mixed-use inclusionary or market rate development shall be subject to a fee up to the two and a half (2.5) percent development fee, unless otherwise exempted below.
 - ii. The 2.5 percent fee shall not apply to an increase in equalized assessed value resulting from alterations, change in use within existing footprint, reconstruction, renovations and repairs.

- iii. Non-residential developments shall be exempt from the payment of non-residential development fees in accordance with the exemptions required pursuant to P.L.2008, c.46, as specified in the Form N-RDF "State of New Jersey Non-Residential Development Certification/Exemption" Form. Any exemption claimed by a developer shall be substantiated by that developer.
- iv. A developer of a non-residential development exempted from the non-residential development fee pursuant to P.L.2008, c.46 shall be subject to it at such time the basis for the exemption no longer applies, and shall make the payment of the non-residential development fee, in that event, within three years after that event or after the issuance of the final certificate of occupancy of the non-residential development, whichever is later.
- v. If a property which was exempted from the collection of a non-residential development fee thereafter ceases to be exempt from property taxation, the owner of the property shall remit the fees required pursuant to this section within 45 days of the termination of the property tax exemption. Unpaid non-residential development fees under these circumstances may be enforceable by Neptune Township as a lien against the real property of the owner.
- vi. Public government agencies and schools, which are classified by the Tax Assessor as exempt from payment of property taxes (Property Classes 15A & 15C), shall be exempt from paying development fees.
- vii. Development fees shall be imposed and collected when an existing structure undergoes a change to a more intense use, is demolished and replaced, or is expanded, if the expansion is not otherwise exempt from the development fee requirement. The development fee shall be calculated on the increase in the equalized assessed value of the improved structure.

VI. Collection Procedures

- a) Upon the granting of a preliminary, final or other applicable approval, for a development, the applicable approving authority shall direct its staff to notify the construction official responsible for the issuance of a building permit.
- b) For non-residential developments only, the developer shall also be provided with a copy of Form N-RDF "State of New Jersey Non-Residential Development Certification/Exemption" to be completed as per the instructions provided. The developer of a non-residential development shall complete Form N-RDF as per the instructions provided. The construction official shall verify the information submitted by the non-residential developer as per the instructions provided in the Form N-RDF. The Tax assessor shall verify exemptions and prepare estimated and final assessments as per the instructions provided in Form N-RDF.
- c) The construction official responsible for the issuance of a building permit shall notify the local tax assessor of the issuance of the first building permit for a development which is subject to a development fee.
- d) Within 90 days of receipt of that notice, the municipal tax assessor, based on

the plans filed, shall provide an estimate of the equalized assessed value of the development.

- e) The construction official responsible for the issuance of a final certificate of occupancy notifies the local assessor of any and all requests for the scheduling of a final inspection on property which is subject to a development fee.
- f) Within 10 business days of a request for the scheduling of a final inspection, the municipal assessor shall confirm or modify the previously estimated equalized assessed value of the improvements of the development; calculate the development fee; and thereafter notify the developer of the amount of the fee.
- g) Should Neptune Township fail to determine or notify the developer of the amount of the development fee within 10 business days of the request for final inspection, the developer may estimate the amount due and pay that estimated amount consistent with the dispute process set forth in subsection b. of section 37 of P.L.2008, c.46 (C.40:55D-8.6).

Fifty percent of the development fee shall be collected at the time of issuance of the building permit. The remaining portion shall be collected at the issuance of the certificate of occupancy. The developer shall be responsible for paying the difference between the fee calculated at building permit and that determined at issuance of certificate of occupancy.

- i) Appeal of development fees
 - 1) A developer may challenge residential development fees imposed by filing a challenge with the County Board of Taxation. Pending a review and determination by the Board, collected fees shall be placed in an interest bearing escrow account by Neptune Township. Appeals from a determination of the Board may be made to the tax court in accordance with the provisions of the State Tax Uniform Procedure Law, R.S.54:48-1 et seq., within 90 days after the date of such determination. Appeals from a determination of the Director may be made to the tax court in accordance with the provisions of the State Tax Uniform Procedure Law, R.S.54:48-1 et seq., within 90 days after the date of such determination. Interest earned on amounts escrowed shall be credited to the prevailing party.

- d) All interest accrued in the housing trust fund shall only be used on eligible affordable housing activities approved by COAH.

- a) The ability for Neptune Township to impose, collect and expend development fees shall expire with its substantive certification unless Neptune Township has filed an adopted Housing Element and Fair Share Plan with COAH, has petitioned for substantive certification, and has received COAH's approval of its development fee ordinance. If Neptune Township fails to renew its ability to impose and collect development fees prior to the expiration of substantive certification, it may be subject to forfeiture of any or all funds remaining within its municipal trust fund.
