 10. Location, use, finished grade level, ground coverage, first and basement elevations, front, rear and side setback of all and other pertinent improvements.
 11. Existing and proposed public and private easement or rights-of-way and the purposes thereof, including conservation easements.
 12. A grading plan showing existing and proposed grading contours one (1') foot intervals throughout the tract, except if slopes five (5%) percent, a two (2') foot interval may be used, and if exceed ten (10%) percent, at five (5') interval is permissible. Datum shall be United States Coast and Geodetic Survey Datum and source of datum and benchmarks shall be noted. In addition to proposed grading contours, sufficient additional spot be drawn to clearly delineate proposed grading.
 13. On site drainage plan:
 - (a) The drainage plan shall be presented in graphic form which shall clearly show the street and site layout and those which are pertinent to drainage including existing and contours as previously required.
 - (b) The plan shall outline each area contributing to each
 - (c) All proposed drainage shall be shown with pipe type and size, invert and grade or rim elevations, grades and all direction of flow. The direction of flow of all surface waters and all streams shall be shown.
 - (d) The drainage shall be designed and accompanied by complete drainage calculations made in accordance with the latest NJDEP Stormwater Management regulations (Ord. Sec §528)
 - i. Soil boring, including logs and water tables.
 14. Off site drainage plans. The plan shall also be accompanied by an offsite drainage plan prepared in accordance with the following standards:
 - (a) The plan shall consist of an outline of the entire drainage basin in which the site is located. The terminus of the basin and existing ground contours or other basis for determining

basin limits shall be shown.

- (b) The pertinent off site existing drainage shall be shown with elevations of inverts and grates to the nearest one tenth of a foot.
 - (c) To the extent that information is available and maybe obtained from the County or Township Engineer, any existing plans for drainage improvements shall be shown.
 - (d) In the event a temporary drainage system is proposed, full plans of that system shall be shown.
 - (e) The off site drainage plans shall be accompanied by profiles of all proposed drainage, showing existing details pipe sizes, type inverts, crowns, slopes all proposed structured and connections and design hydraulic grade lines for all conduits designed to carry forty (40) or more cubic feet per second. Cross section at intervals not exceeding one hundred (100') feet shall be shown for all open channels.
15. If required by the Township Engineer, centerline profiles of street bordering the site, internal roadways, and major circulation aisles showing existing and final grads and slopes, and pipe sized, type, inverts and grate or rim elevations of drainage and sanitary sewage facilities.
16. Signature blocks and dates for Chairperson, Administrative Officer and Board Engineer.
17. Signature blocks required by the map filing law (final plat only)
18. Monumentations as required by map filing law and Ordinance Section §512.
19. Zone boundaries and the tax map sheet, lot and block numbers and the names of owners of all properties within two hundred (200') feet of the site.
20. A key map, at a scale of not less than one (1") inch equals 1,000 feet, showing the location of the site with referenced to surrounding areas, existing streets, the names of all such streets and any zone boundary or municipal boundary which is within two hundred (200') of the site.

21. The capacity of offstreet parking areas, and the location and dimensions of all access drives, aisles and parking stalls. The location and treatment of existing and proposed entrances and exists to the public right-of-way, including the possible utilization of traffic signals channelization, acceleration and deceleration lanes, additional width and any other device necessary for traffic safety and/or convenience, and the estimated average number of passenger vehicles, single unit trucks or buses and semi-trailers that will enter the site each day.
22. The location and size of proposed loading docks. (If applicable)
23. The location of curbs and sidewalks.
24. Cross sections showing the composition of pavement areas, curbs and sidewalks.
25. Sign plan indicating measurements, content, dimensions and design.
26. Proposed lot and block numbers as assigned by the Township Tax Assessor.
27. Exterior of lighting plan, including the location, direction of illumination, amount of illumination expressed in horizontal foot candles, wattage and drawn details of all outdoor lighting standards and features.
28. Street lighting per Ordinance Section **§511.B.**
29. Landscaping and screening plan showing the location, type spacing and number of each type of tree or shrub and the location, type and size, spacing and number of each type of ground cover to be utilized and planting details for trees, shrub and/or ground cover.
30. Tree Removal Plan in accordance with Section **§525.**
31. Drawn details of the type of screening to be utilize for refuse storage areas, outdoor equipment and bulk storage area.
32. Floor plans an building elevation drawings of any proposed structure or structures or exsiting structures to be renovated.
33. Location of facilities for the handicapped, including parking spaces and ramps (where applicable), including construction details for ramps for the handicapped.
34. Sectionalization and staging plan. Developer of large uses as shopping centers, multifamily dwellings, industrial parks or other

such

uses proposed to be developed in stages shall submit a sectionalization and staging plan showing the following:

- (a) The anticipated date of commencing construction of each section or stage;
- (b) Plans for separate construction emergency access for the project in order to avoid occupancy conflict.

detail to
congestion, noise,
