

TOWNSHIP COMMITTEE MEETING – APRIL 25, 2011

Mayor McMillan called the meeting to order at 6:00 p.m. and requested the Clerk to call the roll. The following members were present: J. Randy Bishop, Eric J. Houghtaling, and Mayor Kevin B. McMillan. (Dr. Michael Brantley arrived during the workshop open session. Ms. Jahn arrived during the open session and left the meeting between the open session and the executive session)

Also present at the dais were Richard J. Cuttrel, Municipal Clerk; Philip D. Huhn, Township Administrator; Michael J. Bascom, Chief Financial Officer; and Gene Anthony, Township Attorney.

Mayor McMillan announced that the notice requirements of R.S. 10:4-18 have been satisfied by the publication of the required advertisement in the Asbury Park Press and The Coaster on January 6, 2011, posting the notice on the Board in the Municipal Complex, and filing a copy of said notice with the Municipal Clerk.

The following items were discussed in open session:

Charles Callari, American Traffic Solutions provided a presentation on traffic safety cameras. Dr. Brantley and Ms. Jahn arrived during the early part of the presentation. The Mayor asked what the length of the contract would be if the Township decided to pursue the concept. Mr. Callari stated that contracts are for five years. Dr. Brantley asked how often an appeal of a summons is successful. Mr. Callari responded that because the system provides a picture showing the vehicle behind the stop line with the traffic signal red followed by a picture with the automobile in the intersection, there are no successful appeals. The only exception would be if the car was forced into the intersection by another car or if a car is waived into the intersection by a police officer. Chief Adams stated that this is a public safety issue. He stated that he has spoken to other municipalities with the cameras and cannot find any negatives. He added that he strongly supports the installation of traffic safety cameras.

The Mayor asked Roselyn Steverson, President of the Gables Homeowners Association, to address the Committee regarding a parking problem in the Gables. Ms. Steverson stated that the problem with hospital employees parking on the streets within the Gables continues. The hospital administration has tried to help with the situation and the Township enacted parking on one side only on several streets but the abundance of cars parked on the roadways continues. In addition, the employees come to the Gables to smoke cigarettes because they cannot smoke on hospital property. Ms. Steverson continued that the problem is worse in the middle of the week but is a problem Monday through Friday. Ms. Jahn stated that every hospital has this problem and perhaps time restricted parking is the answer. Chief Adams stated that he spoke to some of the Gables residents. He believes a solution is to enact permit parking which is similar to what is in place near the Monmouth County Courthouse. The permit parking would be in effect on Newgate Lane, part of Wakefield Road, part of Oxford Way and Fenchurch Way between 7am and 8pm everyday of the week. The resident would apply to the Police Department for permits and in the event of a party or event, they could obtain additional temporary permits. Mr. Bishop stated that he is concerned other parts of the Township will want permit only parking. Chief Adams stated that this is a year round issue and it involves a business rather than visitors coming to a natural resource such as the beach. Ms. Jahn stated that unless the hospital is willing to pay for the permits, time restricted parking during certain hours would be better.

Mr. Bascom stated that a revised draft snow removal plan has been circulated to the Committee and Local Emergency Planning Committee. The plan will eventually become part of the overall Emergency Operations Plan.

AUTHORIZE AN EXECUTIVE SESSION AS AUTHORIZED BY THE OPEN PUBLIC MEETINGS ACT

Mr. Bishop offered the following resolution, moved and seconded by Ms. Jahn, that it be adopted:

Ms. Jahn left the meeting.

The Committee entered executive session for discussion on closed session matters.

The Committee returned to the Meeting Room for the regular portion of the meeting.

Mayor McMillan called the meeting to order and requested the Clerk to call the roll. The following members were present: J. Randy Bishop, Dr. Michael Brantley, Eric J. Houghtaling, and Mayor Kevin B. McMillan.

Also present at the dais were Richard J. Cuttrel, Municipal Clerk; Philip D. Huhn, Township Administrator; Michael J. Bascom, Chief Financial Officer; and Gene Anthony, Township Attorney.

After a moment of Silent Prayer and the Flag Salute, the Mayor asked the Clerk to indicate the fire exits.

The Clerk stated, "Fire exits are located in the direction I am indicating, in case of fire you will be notified by bell and or public address system. If you are alerted of fire, please move in a calm, orderly manner to the nearest smoke-free exit or the next nearest exit as directed over the public address system.

Mayor McMillan announced that the notice requirements of R.S. 10:4-18 for an "Annual Notice" have been satisfied by the publication of the required advertisement in the Asbury Park Press and The Coaster on January 6, 2011, posting the notice on the Board in the Municipal Complex, and filing a copy of said notice with the Municipal Clerk. In addition, the meeting agenda, resolutions and ordinances are available online at www.neptunetownship.org for public viewing before each Township Committee meeting.

COMMENTS FROM THE DAIS

The Mayor requested comments from the dais and they were as follows:

Eric Houghtaling stated the Recreation Department had their Easter Egg hunt last weekend which went very well despite the damp weather. He stated a lot of kids showed up as well as a lot of volunteers. He thanked the students from Neptune High School Student Council for showing up and helping. He stated the municipal budget has been good for the last three years and they have still been able to provide all the essential services that are needed. He thanked the township employees for their help and understanding in trying to keep the municipal budget where it is and without them it would not have been possible.

Randy Bishop stated they were continuing to get the World Changers Program together for the summer and it looks like they have ten projects in Neptune. He stated they had a meeting with the Mayor's Youth Advisory Cabinet and they had a very interesting discussion on cyber bullying. He

went on to state that he attended the Easter Egg Hunt. He stated he was proud to announce that Neptune Township was being honored with three awards by the Planning Commission and one of them was for School House Square, the other one was for Midtown Commons but he could not remember what the third one was for. He stated today they were notified that Neptune Township was being honored this Thursday for EGovernment for the website the Township has. He thanked Roberta Grace for all the work that she does on the website.

Mayor Kevin McMillan stated he also attended the Mayor's Youth Advisory Cabinet and they are working on cyber bullying. He stated he also met with Ellis Jones and Diana Harris to discuss issues as it relates to MURC. He stated in July he hoped to have a Mayor's Business Summit with the local area businesses and they would like to get the EDC involved as well as New Jersey Redevelopment Authority as well. He stated he met with the Passion Group today and on October 1st they would have their first Riverfest which would replace Neptune Day. He stated it was something new and they hoped to have great participation by all Neptune residents.

PUBLIC COMMENTS ON RESOLUTIONS

The Mayor requested public comments regarding resolutions presented on this agenda.

Dorothy Argyros made comments relating to Resolutions #11-203 and #11-204. She stated that Neptune pays the most taxes and gets the least for it such as the last snow storm and now many months later there still isn't a plan.

Mayor McMillan stated in the open session of the Workshop Meeting Mr. Bascom did speak about the plan.

Mrs. Argyros stated she just looked at the budget and she almost fell asleep during Mr. Bascom's speech and she did not understand what he was talking about. She requested a simple explanation as to the amendments. She also questioned the totals because everything was going up substantially and there were other parts where it went down a little bit.

Mr. Bascom stated budget amendments slightly reduces the amount of a grant they are to receive from the Drug Alliance by \$444.00, the second one moves an appropriation from one section of the budget to another at the direction of the Division of Local Government Services and it does not affect the bottom line of the budget. He stated the third amendment places the library tax and appropriation back within the budget but still keeps it as a separate tax on the tax bill. He stated there was no change in the bottom line of the budget. He stated the total budget was decreased by \$444.00 compared to the introduced budget that they discussed at the last meeting. He stated the budget appropriations were down several million dollars from last year and the year before.

Mrs. Argyros questioned whether taxes were going.

Mr. Bascom stated that was correct.

Mrs. Argyros questioned whether the copy of the budget that was on the board reflected the amendments.

Mr. Cuttrell stated the amendments were posted.

Mrs. Argyros questioned how much of an increase would the residents see.

Mr. Bascom stated it would be roughly three cents on the tax rate.

Mrs. Argyros stated they needed less taxes but the same services.

Diana Harris requested clarification of the location of the remediation that was taking place as mentioned in Resolution #11-202.

Mr. Cuttrell confirmed that it was on West Lake Avenue and that the Resolution was correct.

Michael Fornino questioned why the sewer rent was being canceled as mentioned in Resolution #11-197.

Mr. Bascom stated they were billed based upon an estimate because they did not receive their flow numbers until after the building was submitted and once they received their flow numbers they have to adjust the billing which requires a cancellation.

Mr. Fornino also had questions regarding Resolution #11-201 and questioned who was the Purchasing Agent for the Township of Neptune.

Mr. Bascom informed him that it was Edward Hudson.

Mr. Fornino stated he was not aware that he had to be authorized to do this.

Mr. Bascom stated there were some things that he is directed to do by the governing body so that we know that it is clear.

Mr. Fornino suggested Mr. Hudson contact the municipalities that already have the systems in place and learn from their mistakes.

Francis Paladino commented on Resolution #11-200 and questioned whether the Township had a new time table for the drainage project that was derailed.

Mr. Bascom stated Leanne Hoffman was putting it back out to bid because every bidder forgot to submit one document.

The Mayor requested public comments on this ordinance and they were as follows:

Michael D. Fornino questioned what was the purpose of this ordinance.

Mr. Anthony stated the Police Department actually recommended this ordinance to help regulate the sale of gold which is very popular right now and a lot of people are selling gold because of the price of it. This would help prevent illegal transfer of jewelry to gold buyers which is often the case in a high gold market. He stated there were a lot of stolen good situations and this would attempt to regulate it so they would have to report the sale to the police department to make sure that the items were not stolen goods but there were some exemptions.

Mr. Bishop stated the reason being is that the people buying gold would melt it down and the item would never be found.

There being no further comments, the Mayor closed the public hearing.

APPROPRIATING \$400,000 THEREFOR (INCLUDING A GRANT
RECEIVED OR EXPECTED TO BE RECEIVED IN THE AMOUNT OF
\$244,151) AND AUTHORIZING THE ISSUANCE OF \$148,000
BONDS OR NOTES OF THE TOWNSHIP TO FINANCE PART OF
THE COST THEREOF

The Mayor requested public comments on this ordinance and they were as follows:

Dorothy Argyros stated she did not like to read the word bond because that was something that they were sticking on their children. She stated she felt that some people's complaints in the Township get a lot of attention and others don't. She questioned what was their system for establishing priorities and where was Millbrook and Brockton Estates. She stated they never get a reason for what the Township does and questioned the need for the improvements.

Mr. Bascom stated the engineer, the police department and the department of public works are all involved in determining whether or not a road needs to be reconstructed and in this case it was his understanding that the Millbrook Avenue area and portions of Brockton Estates suffer from severe flooding during regular storms and that this is a fix that was financed in part by the Department of Transportation which they are eligible because these roads exits out to Route 35 and Neptune Boulevard which makes them feeder roads to a larger thorough fare so they qualify for the grant funding to offset the cost so in this case he believed the evaluation was based upon the need, public safety, the condition of the roads and the repetitive flooding and the fact that we could leverage our funds with State funds to get a larger project done.

Mrs. Argyros stated she would point out that State funds were still her money.

Mr. Bascom stated that was absolutely correct.

Mrs. Argyros stated she hoped they did their investigative work and found out that these areas were in the most need because in her area there was a standing flood. She suggested the areas be done based on priorities because there were other areas of town that were having more trouble.

Michael Fornino stated he has a friend that lives in that area and they've had a drainage problem for over forty years but he expressed concerns regarding the statement that says for a grant that is expected to be received. He questioned whether the same thing happened with the Senior Center. They were suppose to receive a grant but did not get it. He questioned whether he read the newspaper correctly.

Mr. Bascom stated he thought what the paper was trying to say was that future community development block grants were in jeopardy but that our senior center was already funded and the money was already dedicated to us as has these funds.

There being no further comments, the Mayor closed the public hearing.

The ordinance was adopted on the following vote: Bishop, aye; Brantley, aye; Houghtaling, aye; and McMillan, aye.

ORDINANCE NO. 11-26 - APPROVED

PRIVILEGE OF THE FLOOR/PUBLIC COMMENTS

Kennedy Buckley made it clear that he spoke as a citizen and stated he wished to discuss the trailer boat ordinance, the fire assessment applications to build new homes, parking issues during the winter and summer and demolition by neglect. As far as the parking ordinance he thanked the Committee for taking action on it. He stated a lot of fire applications that come before the HPC are reviewed and receives the best attention possible and is expedited as much as they can. He commended the Township officials and departments that have aided the people to get their buildings put up. He stated parking was a winter and summer problem he felt that if they were going to be rationing free parking they should have a plan. As far as winter parking he stated he hoped they were addressing warehousing issues where people were leaving their vehicles on the road when there was a snow storm.

Mr. Bascom stated the snow removal plan addressed moving the vehicles earlier on in the forecast rather than when the roads are covered.

Mr. Buckley stated some of the vehicles are warehoused in the parking spaces and remain there for months while the owners are in Florida.

Mr. Bascom stated the snow plan really only focused on snow emergencies and they would move them in those cases.

Mr. Buckley stated parking in the summer was bad and he read in the newspaper that Asbury Park was going to stripe a thousand more parking spaces which will be without meters and another five hundred after that and then double the fees for the existing meters. He stated there would then be a lot of people not parking in Asbury Park and would come into Ocean Grove. He stated they had to satisfy the citizenry and it was a balancing act and whose rights take precedence. He went onto say that the Township has spent money regarding demolition by neglect and the addresses have been put into the paper. He stated it was an issue that was not going to go away and the Homeowner Association would do their part.

Michael Fornino requested an overview of the permit parking in the Gables.

Mayor McMillan stated the Chief eloquently discussed a plan that he had and they will also entertain input from Ms. Steverson-Hurt as well.

Mr. Fornino stated he was told that the Township had a snow removal plan in place.

Mayor McMillan stated Mr. Bascom spoke regarding that in open session.

Mr. Bascom stated the draft plan was completed and submitted to the Committee and the Local Planning Committee and various department heads for the final review and the final edits have been submitted back and will now become an attachment to the emergency operations plan which will be opted in whole in May and once it is approved you will have some public outreach and some information will be available to the public for review and it will be posted on the website.

Mr. Fornino stated he was not a website person and it bothered him that it would take five months to draft what is basically considered a business plan. He felt the Committee should be ashamed of themselves.

Mr. Houghtaling stated they did not want to rush into it. He felt they had a good plan and it would be in place by the time that they would need it.

Mr. Fornino suggested a sidewalk be put in on Wakefield Road between the old Thompson property that was torn down and the 200 block of Wakefield Road. He stated the property was owned by the hospital.

Mayor McMillan stated he would make sure the Police Department gets this information.

Diana Harris questioned when would the remediation for the park be done.

Mr. Bascom stated based on his conversation with the engineer it should be done in mid-August to September 1st.

Jim Granelli questioned whether any violations have been issued regarding the RV ordinance and if none have been issued when he receives his violation next week because he stated he knew he would. He questioned whether he would be able to face the person who called it in. He stated in the past they blanket violated it all and he hoped that they would continue to do the same in terms of equal enforcement. He also questioned how the Township was doing with the site triangle violation notices. He illustrated the problems he felt that the Township has caused him. He also questioned where the Township was on temporary shelters.

Mr. Bishop stated the temporary shelters has been turned over to the Land Use Department and they are waiting for them to get back to them.

Dorothy Argyros stated she was very impressed to their response to a few complaints that were made by people that did not like small boats and RV's when they've been complaining about the microphone system for years. She also complained about how high the resolutions were placed and she could not read them. She also stated how a neighbor of hers was complaining about the noise in her neighborhood. She stated she told the neighbor to tell the Committee but she stated she did but nothing was ever done. She further stated she knew her concerns would not be addressed. She also stated that she heard that Community Development Block Grants were in danger. She requested more information and whether the Township has violated anything.

Mr. Bascom stated the federal government has reduced and maybe eliminated Community Development Block Grants and it has nothing to do with Neptune.

Mr. Bishop stated it was one of the items on the table for review under the federal budget and they are looking to eliminate Community Development Block Grants.

Mrs. Argyros stated that she thought that it had come to the attention of the Government that it was not being used properly.

Mayor McMillan stated that was not true.

Mr. Houghtaling asked Mrs. Argyros if her friend approached everyone on the council about her complaint because he said that he had not spoken to her but he would be willing to.

Mrs. Argyros stated the neighbor did not speak to the Committee and that she had spoken to Mr. Cuttrell and the Police Department.

Mrs. Hurt-Steverson stated she had a problem with the Recreation Program in Neptune. She felt that it was too expensive to send her kids.

Mayor McMillan stated the Township has received a grant and the cost has gone back down.

Mrs. Hurt-Steverson stated even the one week camps were still too expensive and was not meant for the average person in Neptune. She stated they must make it inviting to both the parents and the kids. She did not feel that the time that the program was scheduled was not good as well. She stated there were not enough summer enrichment for the kids during the summer months especially the younger ones. She suggested they engage in something with the Board of Education.

Mr. Hougaling stated Ms. Thompson has a very reduced budget and unfortunately tennis is expensive but not one is volunteering to help.

Ms. Hurt-Steverson again suggested the Township join in with the Board of Education.

Mr. Bishop offered a motion, seconded by Dr. Brantley, to adjourn. All were in favor.

Municipal Clerk
