NOTICE IS GIVEN TO: NA

The Flood Disaster Protection Act of 1973, as amended, requires that Federally regulated lending institutions shall not make, increase, extend, or renew any loan secured by improved real estate, or a mobile home located or to be located, in an area that has been identified by the Director of the Federal Emergency Management Agency (FEMA) as an area having special flood hazards and in which flood insurance has been made available under the National Flood Insurance Act of 1968, through the National Flood Insurance Program (NFIP), unless the building or mobile home and any personal property securing such loan is covered for the term of the loan by flood insurance in an amount at least equal to the outstanding principal balance of the loan or the maximum limit of coverage made available under the Act with respect to the particular type of property, whichever is less.

NOTICE TO BORROWER ABOUT SPECIAL FLOOD HAZARD AREA STATUS

☒ Notice of Property in Special Flood Hazard Area (SFHA)

The building or mobile home securing the loan for which you have applied is or will be located in an area with special flood hazards. The area has been identified by the Director of FEMA as an SFHA using FEMA's Flood Insurance Rate Map or the Flood Hazard Boundary Map for the following community: NEPTUNE TOWNSHIP

This area has at least a one percent (1%) chance of a flood equal to or exceeding the base flood elevation (a 100-year flood) in any given year. During the life of a 30-year mortgage loan, the risk of a 100-year flood in a SFHA is 26 percent (26%). Federal law allows a lender and borrower jointly to request the Director of FEMA to review the determination of whether the property securing the loan is located in an SFHA. If you would like to make such a request, please contact us for further information.

☐ Notice of Property Not in Special Flood Hazard Area (SFHA)

The building or mobile home described in the attached instrument is not currently located in an area designated by the Director of FEMA as a SFHA. NFIP flood insurance is not required, but may be available. If, during the term of this loan, the subject property is identified as being in a SFHA, as designated by FEMA, you may be required to purchase and maintain flood insurance at your expense

NOTICE TO BORROWER ABOUT FEDERAL FLOOD DISASTER ASSISTANCE

☒ Notice in Participating Communities

The community in which the property securing the loan is located participates in the NFIP. The Flood Disaster Protection Act of 1973, as amended, mandates federally insured or regulated lenders to require the purchase of flood insurance on all buildings being financed that are located in SFHAs of communities participating in the NFIP. The flood insurance must be maintained for the term of the loan. If you fail to purchase or renew flood insurance on the property, Federal law authorizes and requires us to purchase the flood insurance at your expense.

Flood insurance coverage under the NFIP may be purchased through an insurance agent who will obtain the policy either directly through the NFIP or through an insurance company that participates in the NFIP. Flood insurance also may be available from private insurers that do not participate in the NFIP.

At a minimum, flood insurance purchased must cover the lesser of

- (1) the outstanding principal balance of the loan; or
- (2) the maximum amount of coverage allowed for the type of property under the NFIP.

Flood insurance coverage under the NFIP is limited to the overall value of the property securing the loan minus the value of the land on which the property is located.

Federal disaster relief assistance (usually in the form of a low-interest loan) may be available for damages incurred in excess of your flood insurance if your community's participation in the NFIP is in accordance with NFIP requirements.

☐ Notice in Nonparticipating Communities

Flood insurance coverage under the NFIP is not available for the property securing the loan because the community in which the property is located does not participate in the NFIP. In addition, if the nonparticipating community has been identified for at least one year as containing an SFHA, properties located in the community will not be eligible for Federal disaster relief assistance in the event of a Federally-declared flood disaster.

SECTION II ELEVATION CERTIFICATION (Certified by a Local Community Permit Official or a Registered Professional Engineer, Architect, or Surveyor.)

FIRM ZONE A1-A30: I certify that the building and the property location described above has the lowest floor (including basement) at an elevation of 10 feet, NGVD (mean sea level) and the average grade at the building site is at an elevation of 10 feet, NGVD.

FIRM ZONES V, V1-V30: I certify that the building at the property location described above has the bottom of the lowest floor beam at an elevation of _____ feet, NGVD (mean sea level), and the average grade at the building site is at an elevation of _____ feet, NGVD.

FIRM ZONES A, A99, AH and EMERGENCY PROGRAM: I certify that the building at the property location described above has the lowest floor elevation of _____ feet, NGVD. The elevation of the highest adjacent grade next to the building is _____ feet, NGVD.

FIRM ZONE AO: I certify that the building at the property location described above has the lowest floor elevation of _____ feet, NGVD. The elevation of the highest adjacent grade next to the building is _____ feet, NGVD.

SECTION III FLOODPROOFING CERTIFICATION (Certification by a Registered Professional Engineer or Architect)

I certify to the best of my knowledge, information, and belief, that the building is designed so that the building is watertight, with walls substantially impermeable to the passage of water and structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy that would be caused by the flood depths, pressures velocities, impact and uplift forces associated with the base flood.

YES ☐ NO ☐ In the event of flooding, will this degree of floodproofing be achieved with human intervention?

(Human intervention means that water will enter the building when floods up to the base flood level occur unless measures are taken prior to the flood to prevent entry of water (e.g., bolting metal shields over doors and windows).

YES ☐ NO ☐ Will the building be occupied as a residence?

If the answer to both questions is YES, the floodproofing cannot be credited for rating purposes and the actual lowest floor must be completed and certified instead. Complete both the elevation and floodproofing certificates.

FIRM ZONES A, A1-A30, V1-V30, AO and AH: Certified Floodproofed Elevation is _____ feet, (NGVD).
